A PHYSICIAN'S

FIRST STEP

When you are ill a physician's first step is fo give a larative, no matter what the trouble may be, because no medicine will take proper effect while waste is in the Lower Intestine.

If there were no waste there, you probably would not have been ill at all, because physicians agree that 95% of all human ills is due to the secumulation of waste matter in the Lower Intestine.

Enlightened physicians are now recommending Internal Baths by means of the "J. B. L. Cascade," and hundreds of thousands are already using it to keep their Intestine free from waste always and with correspondingly better health, strength and efficiency.

"I challenged the dootors in this town last week in regard to what I can do with your 'J. B. L. Cascade': that if they will call me as soon as they have decided they have a case of Appendicitis, if I do not cure the case I will give them \$500, so sure am I of the benefit of a thorough cleaning of the Lower Bowels."

Fire was discovered last night in the basement of a four-story tenement house at No. 49 Utica avenue. Williamsburg. Brooklyn. When the filmen got there the flames had maked the gas pipes in the cellar. Firemen Joseph Dunicavy, Thomas Carroll, Fred Zacholne and Harry Atten of No. 134 Engine Company were overcome by gas, but were revived by comrades and went home. The fire did small damage.
